

TRANSCRIPT PREPARED BY THE CLERK OF THE LEGISLATURE  
Transcriber's Office

June 12, 1997

LB 213, 389

the reasons why this is important. People will recall two years ago the Legislature and the Appropriations Committee fully funded or took full advantage of the federal funding that was available. A portion of that was vetoed out then. We made progress in that we are certainly accessing more of the federal funds that are available to us now than we were before. This year I introduced LB 213 that would have provided 100 percent funding. The bill had a hearing. The Appropriations Committee included that in their recommendations and the Legislature also included that in the budget bill that went to the Governor. You know, this money aids individuals that need it most to enable them to secure employment, as Senator Wesely indicated. It includes training, employment, case service, assistive devices, education. Anyone that's disabled has an opportunity to access these funds with the emphasis in years passed on severe disabilities. Now jobs are important to all of us, but I know a number of individuals in my hometown that have used vocational rehabilitation and when they're able to then secure employment and have a job it changes their life dramatically, far more than it changed my life when I got my first job. Their self-worth, their ability to be a productive member of this society means a great deal to these people that are helped by these funds. With that, Mr. President, I would ask, since there is room, we will still be above the minimum reserve by a million, three-quarters, a thousand, that we in fact override this particular veto of the Governor, that we access fully the federal funds that are available and we help more Nebraskans that can use this assistance. Thank you.

SPEAKER WITHEM: Senator Chambers, you would be recognized to close on your motion.

SENATOR CHAMBERS: Mr. Speaker and members of the Legislature, I don't think that I can add anything that would sum up the case better or more effectively than have Senator Wesely and Senator Maurstad. As I look around, it seems that some of our numbers have gone, so I will ask for a call of the house. Then I will take a machine vote.

SPEAKER WITHEM: Question before the body is, shall the house go under call? All of those in favor vote aye, opposed vote nay. Record.
